

QSAR APPLICATION TOOLBOX ADVANCED TRAINING WORKSHOP

BARCELONA, SPAIN

7-8 MAY 2009

AGENDA (*Draft*)

Thursday, 7th May 2009

0830-0900	Registration and Toolbox loading
0900-0915	Welcome and Introductions/Announcements
0915-1015	Overall Introduction to the Toolbox: philosophy; workflows, grouping methods databases, estimation methods, boundaries, and plans for future development
1015-1045	Illustration on using of the QSAR Toolbox: qualitative and quantitative read-across for filling of data gap
1100-1130	Coffee Break
1130-1200	Mechanism-based categorization
1200-1300	Workflows for category associated with chemical submissions in Europe
1300-1400	Lunch
1400-1500	Example for analogue evaluation with support from the QSAR Toolbox, based on aldehydes for acute toxicity to fish
1500-1530	Examples for evaluation of chemical category including the primary amines (Part I)
1530-1600	Coffee Break
1600-1700	Examples for evaluation of chemical category including the primary amines (Part II)
1700	Adjourn

Friday, 8th May 2009

0900-1100	Recognizing subcategories: acrylates/methacrylates
1100-1130	Coffee Break
1130-1300	Example of alkyl phosphates flame retardants
1300-1400	Lunch
1400-1430	Example for evaluation of chemical category/proposal for testing (mercaptans)
1430-1530	Examples of evaluation of chemical categories (demo and hands-on) – Part I
1530-1600	Coffee Break
1600-1700	Examples of evaluation of chemical categories (demo and hands-on) – Part II
1700-1715	Discussion and Closing Remarks
1715	Presentation of Certificates and Adjourn
